NOTE: A representative of your staff must be available to test software at least 24 hours before the class begins. If you provide your own software, it must be in the possession of the NCTC IT no later than 10 days prior to class.

Internet Access: All computer labs have internet access.

Software Licensing: The NCTC is responsible for licensing of only software that it owns. The NCTC requires and assumes that any other entity requiring the NCTC to load software for training purposes is fully licensed to do so. Software not owned by the NCTC will be removed from the NCTC computers upon completion of the training class.

Software Loading: Software is loaded by the NCTC computer lab manager unless pre-negotiated otherwise.

Virus Security: Prior to its use, the Lab Manager must scan a disk brought in from the outside.

SWAN Security: For FWS Service Wide Area Network (SWAN) connectivity, students must sign a security statement.

Phone Lines: Phone line use must be for official training purposes only.

Food: Neither food nor drink are permitted in a Computer Lab.
